

FEBRIAN ANUGRAH WICAKSONO

Curriculum Vitae and Portfolio

Contain my previous works
and experience between the
period 2013 - early 2019.

Febrian Anugrah Wicaksono

I am a 27 years old self-proclaimed Graphic Designer/Illustrator with a bachelor's degree in Architecture from Universitas Indonesia. I have around 5 years of experiences working as a graphic designer.

I specialize in designing posters, visual branding, infographics, illustration, and many other creative projects. I've been doing works with clients worldwide as I find distance is not a hindrance in this field of work.

I love what I do, and I love collaborating with people who are as enthusiastic about their business as I am about design and illustration.
