Hello **Marsha**

my name is

Hello. My name's marszha, the 'z' is inaudible so just call me Marsha. I graduated from BINUS University. I was born in Jakarta, Indonesia. I like to draw and design a lot of things I fell in love with drawing since i was 5 years old. I like working on my own, But working with people will push me a lot harder on my works. My objective is to become a helpful and awesome illustrator! I have a lot of interest in video games, I love making characters. My work style varied from a lot of categories, it could be cute, but it could be creepy too. Everything i've experienced heavily influenced my work. I am still learning and i'll learn forever. Will be looking forward to work and learn with you.

Free time

In my free time, I love making loose characters for anything. And i frequently make fanarts for anything that i recently like, Or making a cover for my Father's Book. But even though i heavily took interest in drawing, I also like to make videos, by editing them. And i also like making light 2D animation or even just a short application in flash.
