I am an Illustrator and designer living and working in Surabaya, Indonesia.

My professional career began in 2002 as an illustrator & Graphic designer at Jawa Pos, a Surabaya's biggest Daily Newspaper, for a year, and decided to resign because have to spend more time and energy to finish my tasks in college.

i finish two comic books for a competition, held by Departemen Agama Republik Indonesia in 2003 and 2004 as a third and a fourth winner.

i worked as a part time graphic designer for a couple of months in an interior consultant during the final project period as a college student.

in 2006 (until now) I joined PT. Djarum Regional Sales, Region Indonesia Timur as an in-house Designer, under the marketing department.

There I meet the various needs of the brands (owned by the company, PT. Djarum ~ for now, it known as PT. Sumbercipta Multiniaga) and solve the problems through design, such as branding joints, merchandise, and events.

I've had the privilege of good times working with such companies as the Jawa Pos, Djarum, etc and keep realizing projects from ideas to deliverables.

after office hour, I am a full independent illustrator and Designer who provide conceptual services, illustration in various media, comics, identity design, art direction and creative consultation to various clients.

While I now have a network of creative professionals, my business relationships remain intimate. Working closely with my clients allows me to customize each project to their specific needs.

I'd love to listening to good music. and I enjoy Coffee and Basketball.
