

MULTIMEDIA  
DESIGNER

CINDY  
HENDRIETTA

## ABOUT ME

I'm a multimedia designer from Jakarta, Indonesia, highly motivated and passionate about art in general. I have a fine art background that took me into visual design, which later on, with the use of technology also took me to work with vector art. I love to create classic and modern layout for any print media or digital design. I'm capable to edit video and make simple animation, but most of my projects focus on layouting and typography.

### I THINK

My passion for design is much more than sitting in front of a computer and create something looks pretty well. For me, design is to inspire people's mind with my work.
