

DICKY PRAKOSO

curriculum vitae

I was born on 31th January 1992 in Semarang, Indonesia. I'm a graphic design student from Binus University in Jakarta, Indonesia. Although I know that graphic designing is something that I'm passionate about and definitely comfortable with, I would love to expand my knowledge to maximum heights. My goal is to reach for the industry and gain as much experience as I can by practicing in the creative fields, which can help me be a proper professional, not just knowing how to make a design but also to know what works best in every case.
