

HELLO

My name is Muhammad Alfian Khoirudin, I'm a motion designer with experience in the creative industry since 2014, and graduated from Telkom University with bachelor degree focused on visual communication and design.

For the past four years I've been gaining experience by helping clients to make motion graphic and animation for promotional, campaign, and explainer videos.

I have a thirst for knowledge about motion design and still hunger to learn and contribute in collaborative, dynamic, and challenging environments.
