NEW ARRIVAL

AR DRONE 2.0
ELITE EDITION

PRODUCT INFO

The newest version of the Parrot AR Drone 2.0 is largely one of aesthetics. You won't find any additional oddities here making the standard version outdated. As you'll find, this version only solidifies the idea that the AR Drone 2.0 is still top of the line for what it's best at: flying around controlled by your iPad – or your Nexus 5 – or your NVIDIA SHIELD.
