Orang Utan is one of endangered species protected by national law. Their population continuously declined due to deforestation and illegal trade.

The poster is designed to raise people awareness to keep the habitat of orangutans safe from deforestation and hunting.

There is a lot of facts about the dangerous effects of smoking. Poor national regulation and low self-awareness among people in our society caused the increasing number of smokers.

Cigarette definitely harms smokers' body. This poster describes lung cancer as one of the bad effects of smoking, along with the fact that the average lifespan of smokers often less than 40 years old.

initiative

Child abuse occurs frequently in our country. Children supposed to receive love from people around them yet they became the frailest target of verbal and nonverbal threats.

We can participate actively to protect the children around us by reporting child abuse to Komisi Perlindungan Anak.

This poster is designed to inform the society about TESA 129 (Telepon Sahabat Anak) call center. TESA 129 is a service aims to accommodate children protection and help the children who currently in urgent situation. TESA 129 also provides information and counseling service for children and adults in need.
