

NAME

# DANDHI WIDIADAMARAMA

SUMMARY

Recently graduated from Computer Science major and experienced in web based programming language. I create beautiful, usable, professional websites using best practice accessibility and the latest W3C web standards guidelines, resulting in semantic and seo friendly XHTML and CSS. All my websites are lovingly hand coded. In the last years he has particularly been focusing on all the features of Web Strategy and - of course - on the skill of talking about himself in the third person

EMPLOYMENT
