How it works?

- The designer is assigned to you a minimum specific duration. It can be between 1 month to 6 months.
- Each assigned individual works for you for 22 Days in a month and delivers 176 hours of production at the cost agreed upon.
- The work is carried on between 9:30 AM – 6 PM (Mon – Fri) at our design studio office.
- If the number of work days is more than 22 for any given month then the billing remains the same i.e. if you get 24 work days between 1 - 31 of any month then you enjoy the remaining 2 days totally free of all costs.
- The notice period before termination of service or any individual employee has to be 15 days otherwise the billing for the whole month needs to be paid.
