

# A

## About

An Indonesian graphic designer with a taste for everything aesthetically pleasing or easy on the eye.

Also an avid Manchester United fan, a somewhat perfectionist type of person, an introvert with a mouth, a UFC fan, an extreme hater of Japanese cosplays.

A graphic designer by accident, I have gained several recognitions from the international design scenes such as being selected as one of 99 designers worldwide whose works were exhibited in the Comic Sans for Cancer Exhibition in London, and also being included in top 100 winners out of 1,010 artworks submitted for the International Reggae Poster Contest.
