## PHOTOGRAPHER RESUME

Beside photography, I am also doing videography. And I can say that I learn Premiere even longer than Photoshop, I rarely use it since most of my work is about photography.

PR

AI

I'm not an Illustrator expert but, I know the basic skills of graphic design. Illustrator help me to do design projects, such as this CV.

## ABOUT ME

Born in 29/09/1993, Jakarta, Indonesia, Weldy Rhadiska got his first interest in art since he was in a elementary school. Most of the time he spent his time drawing in a blank paper. Until in junior high school he's got his first camera phone, and start to took a picture from that. From that time he really focus on that hobby. He was admitted to Lasalle College International in 2012 and took Photography Major. Since then he did several exhibition and personal photobook projects. He's got his special interest in portraiture on his 4th semester. He also work as a freelance photographer and videographer from 2013 until now.

PS

80% of my work is done with Photoshop. Photoshop is like my main course of my creative mind. Most of my retouching, color correction and other photography related task, was done with this software.
