Personal Statement

I am an undergraduate of Art & Design and a freelance designer from Jakarta. I love everything that has to do with any kind of art. I also have a yearning to learn various kinds of knowledge, because as a designer I have to be knowledgeable just about many things.

I have been studying graphic design for 3 years now, been involved in various campus events several commercial projects. I have worked as an intern twice, therefore, I have also learned to work together as a team. Therefore, I would like to gain experience from working with you. For that, please delve deeper to my qualifications below.
