Work Experience

- PT Sale Stock Indonesia LTD | 2016
Sale Stock is a well-increased startup in Indonesia. As a UI/UX designer, I and my team always doing design improvement for Sale Stock's product to get the better result.
- PT Andalabs Technology | 2015
Andalabs is a software house company in Jakarta. I worked as a UI/UX designer. My team and I always did the best to develop application for our client.
- PT Thiess | 2014
In this project, I created desktop applications as interactive learning media for the employee to help them improve their knowledge.
- Rebas Studio | 2014
It was a studio, built by me and my team when we were students. As UI/UX designer I also contributed to producing a lot of digital products like android apps, windows phone apps, webs, etc.
