

Andoy graduated in September 2014 as an Information System (IT) at STMIK Nusa Mandiri (BSI Jakarta). The study is complete with the highest mark possible on the final project. In fact, before completing his studies, he had worked as a Graphic Designer and Motion Graphic at an Production House. It might sound distorted. He loves their home, Jakarta. Many things according to him are like this city, which is his inspiration to always work. His favorite football and graffiti. In one week he took one (1) time to draw football graffiti / sports.
