

**Khairunas Mauluddin
Massatianagara**
Graphic Designer

Know the world of DI (Digital Imaging) when 5th grade made photo manipulation with Fun House Software. By the time college until now I being trusted by the National Sports Institute and several companies to make a logo, tagline, layout (profile, proposal, bulletins) and stationary. I am very interested in being as "creator" in the sense who want to create something useful. Something that doesn't exist, creative, have many functions or meanings, solving a problem (Out of the Box), and has the impression of relationship and harmony.

CHARACTERISTICS

Open minded, organized, calm, fun, interested, motivated, able to work under pressure
