## EDUCATION

- 2017 BACHELOR DEGREE**  
2013 Experience as a graphic design student taught me to do creative thinking techniques to produce something useful, and certainly can be applied to industries in the creative and non-creative fields.
- 2013 SENIOR HIGH SCHOOL**  
2010 During this high school I have experience in computer and network engineering, before getting to know design, of course understanding about computer devices is very useful when the computer trouble I use to design.
- 2010 JUNIOR HIGH SCHOOL**  
2007 During this junior high school I did a lot of experiments in looking for my identity about what I really enjoyed, so at that time I had time to take part in a computer competition to represent the school.

## EXPERIENCE

- 2017 GRAPHIC DESIGNER & DIGITAL MARKETING**  
When I graduated from college, I had worked in one of the industrial product suppliers in Bandung as a graphic designer and digital marketing. From starting to handling of social media content, online customer service, and IT support
- 2016 GRAPHIC DESIGNER INTERN**  
When I was in college I had an internship as a graphic designer at Kompas Cyber Media (Kompas.com), a lot of tasks I did from starting to create content for social media.
- 2012 STUDENT INTERNSHIP**  
When my SMK became one of ten people representing classes for street vendors at PT. Telkom Indonesia for 3 months. A lot of experience is gained to find out the biggest Telecommunications Industry in Indonesia.
