Junior Graphic Designer AREA Magazine at Media Satu Group

I am a graphic designer graduated from Pelita Harapan University. I've worked in one of print media company. I have vector drawing skill, the juicy idea, cooperate with team, and friendly. I'd like to know some new points of view, a better problem solving, and interesting to know a new one about everthing that i never know before. I am a trusted and qualified human being who is very capable of organizing things and really know how to enjoy life.
