— Overpoint

My name is Jason. I am born and live in Jakarta, Indonesia. Currently I am a Visual Communication Design student of Bunda Mulia University. I like learn new things and easily adapt to the new things as well as surroundings. Can work individually or in a team.

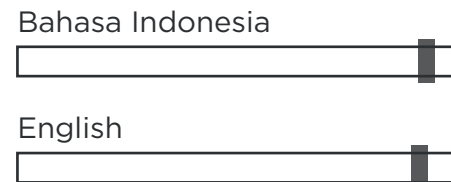

In work, i rely on creativity, good communication, attitude, professionalism and knowledge. I know my work is not the best I could make right now, but I believe as long as we live, we can learn something new everyday. I hope I can join and learn many new things from your company, and can be helpful to your company.

Portofolio

Type : Photography
(Landscape)

Description

I usually take a photo when I was going to holiday with my family. I like to take picture of buildings and surroundings. Its kinda my hobby to take a picture, but I believe I can also use this skill to use it on work.

Right now I can only take a picture of landscape, but I believe I can do more like product photography or a fashion or documentary photography later on if I keep learning.

Enjoy !
