

HERY.SUSANTO

GRAPHIC DESIGNER & ILLUSTRATOR

PROFILE

Hello

My name is Hery Susanto, usually called Hery.

I am a person who loves art. I love this world since I was little, like drawing one of them.

Over time I plunged into the world of graphic design and there I found something that I feel happy.

Although I do not draw formally design knowledge but

I continue to study with any media as long as it is still a chance.

Besides I love the design I also like going to business, because the digital world is now growing rapidly.

I am also interested in new things.

Besides my skills in designing I also like creative business.

Such a short story about me, if you are interested in me to know and collaborate with me,

don't hesitate immediately invite me for an interview.

Thank you
