WHAT IS MY GOAL?

My vision is to take graphic design in Indonesia (especially branding) to the next level where we could compete with other countries. My mission is to teach, to help, and provide design for people in my country. For me branding is one of the most important aspect in every business, it's more than just an identity, but a feeling that is indescribable which is a challenge for me to create that feeling and make an audience for certain business. I'm very grateful to send this cv for you so I could share my goal and purpose to love branding and proud to be a graphic designer.
