

About

My name is Shinta Nadifa. In social media, people mostly know me as Shinn or "Shinnamore". I really like drawing since I was a little kid, and I really interested in Japan Pop Culture especially anime.

I was born in Surabaya, move in Gresik and grew up there, and then back to Surabaya to living my university life. I am an easygoing and spontaneous person. I like to try new things, spend time walking and wondering around and exploring something new around me. Aesthetic things and pinterest become a good inspiration for me most of the time.
