## TO HOW DRESS LIKE BLACK PINK

BlackPink has swept over the hallyu wave into many fans' hearts. We are all pretty much obsessed with them, their music, their style, their personalities. They are not on the right path to becoming a western girl group in the industry, all of them with unique talents. We all heavily admire their sense of style, as it stands out alot compared to other girl groups.

**FOR TOPS**  
These kinds of blouses are very easy to find, even at the mall, honestly. But these are perfect for a more classy Blackpink look. Also include playful graphic tees, blouses, turtle neck tops, oversized sweaters and tuxo, basic crop tops to add variety.

**FOR MAKEUP**  
Makeup always completes a whole look. They mostly glow for light glitter eye shadows. Their makeup is romantic and subtly girly. They often use slight gold glitter or rosegold shadow on their eyes and a baby pink lip tint for the lips. Sometimes they'll wear eyeliner. Stick with iridescent shades in makeup and no heavy smoky eye or cut-eye.

**FOR HAIR**  
Hair is optional, but if you're a real big fan, I would suggest just dyeing the ends of your hair any pastel color. I'd also always change hairstyles. Would recommend just dying the ends a vibrant color.

**FOR BOTTOMS**  
Other than just plaid skirts, you can get the basic black skirt, fish net stockings, denim skirts, denim shirts, distressed jeans, and black jeans. These types of bottoms they use constantly under many tops, and its easy to put together.

**FOR SOCKS**  
Incorporate knee-high socks. The girls have worn high socks very often with many outfits, they can easily be used under skirts and shorts and make your legs look good.

**FOR SHOES**  
The girls often wear combat boots in their accessories. Going on for shoes, get a pair of canvas sneakers. It can be converse.

**FOR ACCESSORIES**  
Now for accessories, this is very simple as well. Simply necklaces with color and gems on them, chunky bracelets, long drop earrings, chokers, layered necklaces, arm cuffs, are all good additions. Anything colorful, layered and messy is very them. Any colorful necklace or bracelet with four bright colored gems, or silver or gold tones, represents their style. Think like hanky panky jewelry.
