Introduction

My name is Raissa Mandy, also known as Red on the internet. I'm currently 20 years old and I was born in Surakarta, April 15th 2000. I started drawing when I was a kid and started making comic when I was in elementary school.

Besides drawing, I also play video games, which has a huge impact for my motivation and inspiration in art. I also usually make video edits with After Effects (can be seen on Instagram @redrxke).

I am currently a student of visual communication design major at Petra Christian University.

I started to take comic and illustration more seriously in 2016. I started immediately by joining a national level comic strip competition by UBS Zetcon and won 2 prizes (2nd winner by voting and 1st winner in best three gold category). After that, I started joining more competitions, such as 4 panels comic competition by Acolytes 2017 (2nd winner), Ajisaka 2019 (1st winner), 2nd winner in PUBG Mobile Ramadhan Art's comic competition (2019), and top 10 in Kreavi's Jaga Privasimu comic competition (2019).

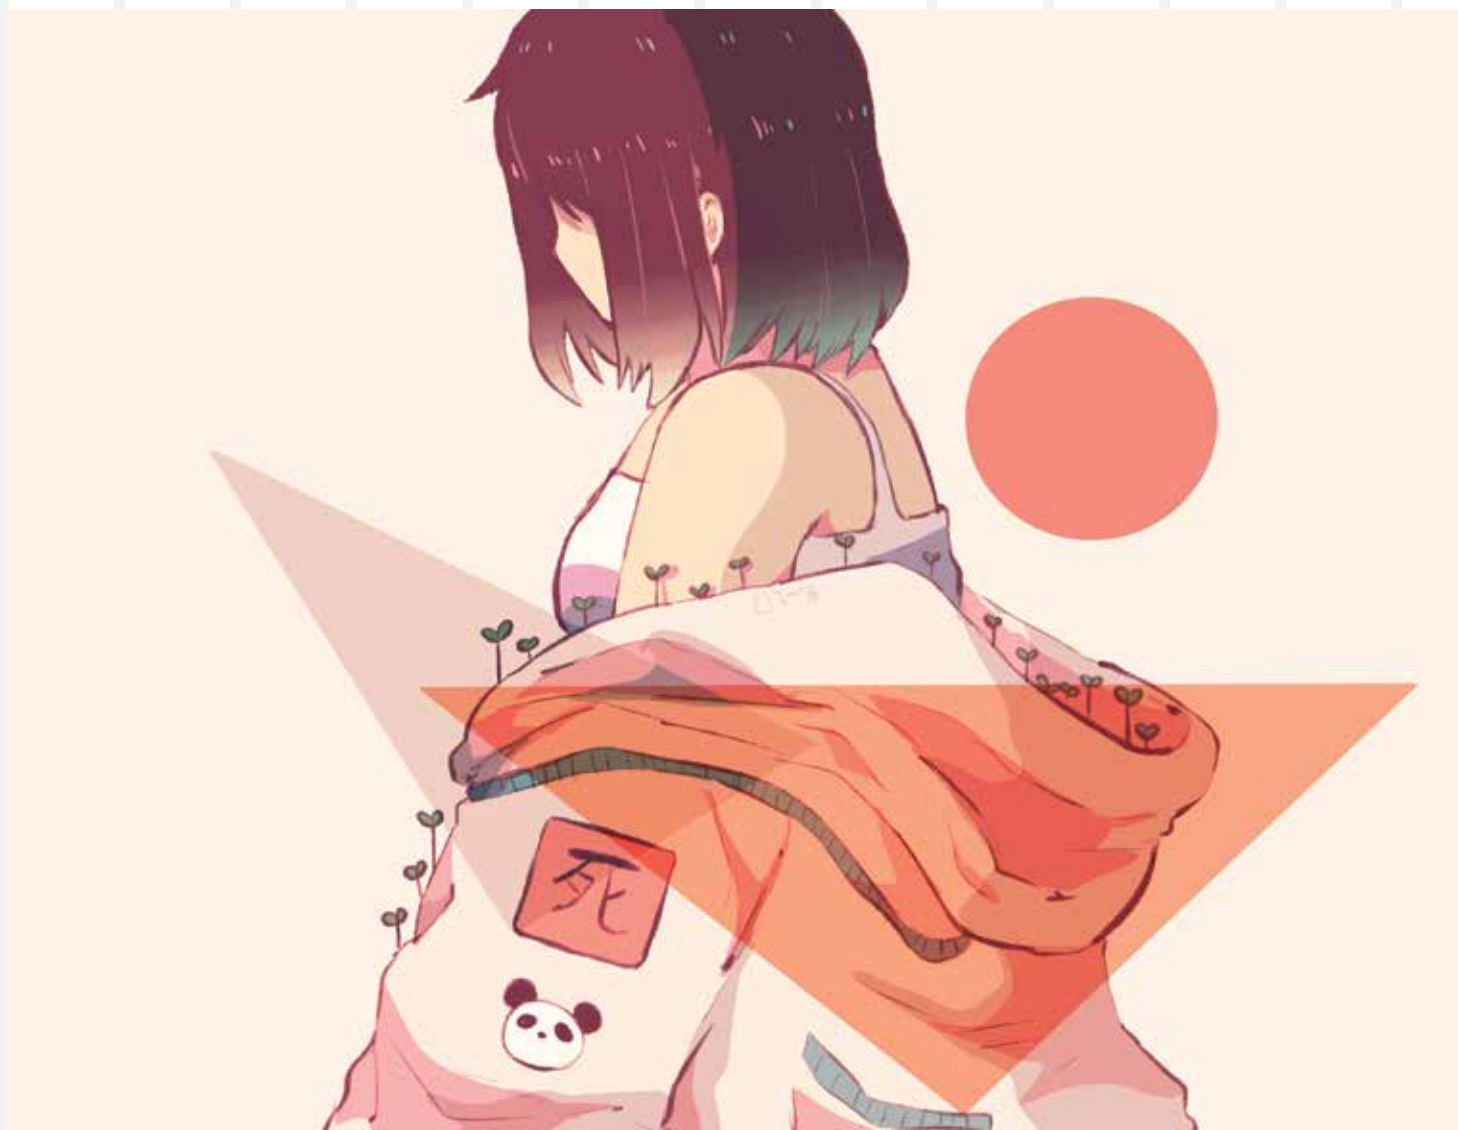

The illustrations in page 4 and 5 are based on video games.

The illustrations in page 6 – 8 are based on my interest in food and simplistic style.

The illustrations in page 9 and 10 are some of the comics that I've made for several competitions.

Thank you!
