PROFILE

I am a freshmen Civil Engineering student of UGM. I like to finish my work as soon as possible, but not forget to help people especially my friends. I like swimming. I will work very hard to achieve my specific goals with any condition. I believe every problem has its own solution, we just have to find it smartly.

REASONS FOR CHOOSING CIVIL ENGINEERING

Infrastructure is one of the most important things to make a great country. I want to understand more about building's power, safety, age, and importantly i want to make my own infrastructure to help the development of Indonesia.

HOPES FOR FACULTY OF ENGINEERING UGM

I hope by becoming a student of UGM, i can be a great leader in the future. I hope i can be a great civil engineer with many achievements of the world. I also hope faculty of engineering UGM will create more great leader for the future Indonesia to make Indonesia a developed country.
