Hello there! My name is Abdul Rahmat Fauzan, i was born in Jakarta 21 years ago.

I am a creative designer who is passionate about everything related to experience and likes to be directly involved in the designing process.

I am Curious, well-organized, fast learners and dedicated. I can work in teams and independent. I believe that learning while doing is a great way to enrich knowledge and experience.

As a designer, the challenge of being a good person is about how to give people something that inspire others and changes people lives to be better than before, because that's the way to have a brighter future.
