SOVER THE LIFE

THE NO. 1 SOLUTION TO WOBBLY TABLES

Gärnsnäs

Gärnsnäs is a young company. It's important to get started in your steps if you are currently searching for the best possible form and function. The approach has been on going since 2005.

Gärnsnäs has been making quality furniture since 2005, always with a primary focus on function and form. Today almost all projects work to use furniture-making knowledge in Sweden to create a solution. They are all inspired by a culture to which the design contributes to create the value. Of course, we believe that what we do is important and that we play a significant role in creating. Furniture should be beautiful, beautiful, and make people feel good. It should encourage a culture of happiness. We don't do that - when we work, related meetings and meals. In other words, it should be good. Gärnsnäs makes more than just chairs and tables, but our history is very much linked to our working conditions.
